SWISS
TEXTILE MACHINERY
ASSOCIATION
MEMBERS

The Swiss Textile Machinery Association is part of Swissmem – the leading association for SMEs and major corporations in the Swiss technology industry.

The Swiss Textile Machinery Association is the representative body for Switzerland's producers of textile equipment, systems and services. Currently 42 companies are affiliated, including manufacturers of machines and components, and service providers, for the textile industry.

The companies offer solutions covering the entire textile value chain:

- Spinning
- Winding
- Weaving
- Knitting
- Nonwoven
- Dyeing
- Printing
- Embroidery
- Finishing
- Quality control

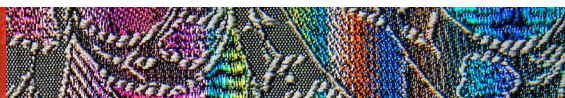

Company		Industry segment	Competence
 JACQUARD • WEAVING • EMBROIDERY	AGM Jactex AG Bahnhofstrasse 21 CH-8212 Neuhausen info@agm-jactex.ch www.agm-jactex.ch	Weaving	Accessories for Jacquard weaving and the wider weaving industry.
 AUTEFA SOLUTIONS	AUTEFA Solutions Switzerland AG Im Alexander 4 CH-8500 Frauenfeld switzerland@autefa.com www.autefa.com	Nonwoven Finishing	Machinery for bonding and finishing of nonwovens; tentering and drying machines; cutting, measuring, rolling and folding machinery; technology for spunlace, airlays, ADL, viscose.
 Becatron AG	Becatron AG Frauenfelderstrasse 25 CH-8555 Müllheim Dorf info@becatron.ch www.becatron.ch	Dyeing	Dyeing machines and apparatus; colour and chemical dispensing systems; electronic systems for knitting, dyeing, printing and finishing.
 BENNINGER	Benninger AG Fabrikstrasse CH-9240 Uzwil info@benningergroup.com www.benningergroup.com	Dyeing Finishing	Open-width washing machines, machines for bleaching, mercerizing and dyeing of woven, knit and technical textiles; water treatment, heat recovery and lye recovery systems.

INNOVATION: IT'S IN OUR DNA

Geneva, Switzerland, 1783:
Jacob Schweppe invents a
way of **carbonating liquids**,
becoming the father of
sparkling water - and founder
of an industry which today
sees over **200 billion liters**
of fizzy soft drinks per year
consumed worldwide.

Vevey, Switzerland, 1819:
François-Louis Caillet invents
the now-familiar **tablet format**
for **chocolate**. His simple idea
makes chocolate available
and **affordable worldwide**.
Today, **one billion** Swiss-made
chocolate bars are produced
each year.

Geneva, Switzerland, 1956:
Philippe Guy Woog develops the
electric toothbrush. Using a ma-
chine in the mouth didn't appeal
to everyone at first! But today
many millions rely on automatic
high-speed brushing to maintain
healthy teeth and gums.

Canton Vaud, Switzerland, 1982:
Daniel Borel's **pc mouse** invention
goes into series production,
connecting humans intuitively
with their computers. **Several**
billion of these ingenious little
devices now click and glide
through countless functions and
applications.
